

# Hydrogen technologies: Exploring facts, myths and future perspectives

## Workshop agenda

The project is supported by the Clean Hydrogen Partnership and its members.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the Clean Hydrogen Partnership. Neither the European Union nor the Clean Hydrogen Partnership can be held responsible for them.

## Hydrogen technologies: Exploring facts, myths and future perspectives

The [Institute for Methods Innovation](#) is pleased to invite you to join the live online workshop “Hydrogen technologies: Exploring facts, myths and future perspectives” on November 28<sup>th</sup>, 2024, from 1 to 3 pm (Ireland time).

### AGENDA

#### Introduction (15 min)

- **Welcome** and introductions
- Overview of **objectives** and **agenda**
- **Icebreaker activity**: Quick poll on hydrogen awareness

#### Understanding hydrogen technologies (20 min)

- Brief **introduction to HYPOP** project and **H2 technologies**
- **How hydrogen systems work**: A simple explanation
- **Benefits and challenges of hydrogen** as an energy source
- **Country-specific facts**: Perceptions, policies and current projects in Ireland

#### Debunking myths vs facts (25 min)

- Participants share their **perceptions, concerns, and questions** (breakout groups)
- Discussion and feedback (plenary)

Break (10 min) ☕

#### Future perspectives on hydrogen technologies (30 min)

- Participants engage with **content on hydrogen technologies**, highlighting **potential, challenges, and relevance to Europe** and/or their **local context**. Groups **brainstorm, draft,** and finalise **original content** (breakout groups)
- Discussion and feedback (Plenary)

#### Q&A and open discussion (10 min)

- **Recap** of main points
- Share **additional resources**

Share new knowledge with the community! 💬
